Profile

Full-Stack Developer with hands-on experience building and shipping features using React, Next.js, and Node.js. Experienced with SSR, REST APIs, and MongoDB-backed applications, with a strong debugging mindset and eagerness to grow through real production work.

Work Experience

Website Developer Co-op

DBTK (Philippines) | May 2025 - August 2025

- Assisted in building server-rendered and statically generated web pages using Next.js, supporting SSR, SSG, and API routes, while ensuring responsive and high-performing user interfaces.
- Supported backend development with Node.js, integrating REST APIs and working with MongoDB databases to manage data and maintain application functionality.
- Debugged frontend and backend issues, collaborated with the team using Git/GitHub, and contributed to delivering stable, scalable, and client-focused web features.
